

The inventor of Dr. Farrah's Boston C is Dr. Farrah Agustin-Bunch, M.D. She comes from a line of noted herbal scientists. In the early 1980's, her grandfather Pablo Agustin developed a liquid concoction which received widespread national attention in the Philippines for effectiveness against cancer. In 1988, Dr. Farrah's father, the herbal scientist Sir Antonio Agustin and her, sought to improve the formulation of his father, having lost his own mother to cancer as a young man. "Boss Tony" as he was known named it "Boston A." The next generation of the product was named "Boston B". The next milestone of product development was called "Boston C". All subsequent improvements to the product have been called "Boston C".

In 2002, the original natural cancer treatment clinic in the Philippines was opened by Sir Antonio Agustin and his daughter Dr. Farrah Agustin-Bunch, M.D. It became loosely known all around the country as the Boston C clinic. This facility is where Dr. Farrah treated patients for cancer and various degenerative illnesses from all over the world.

In 2002 and 2003, one of the largest Universities in the Philippines, UP Diliman conducted laboratory tests using Boston C in various concentrations on lung adenocarcinoma, colon carcinoma, jurkat cell lymphoma, and bladder carcinoma, while a prominent Asian Biotechnology Laboratory tested it on lung and cervical cancer cells for presentation to the World Health Organization.

The official results of these scientific laboratory tests demonstrated and certified that even in its most diluted form, Boston C was a very potent cancer fighter, killing off more than half the population of cancer cells within 3-5 days in their tests. This got the attention of the preeminent Filipino Physician and Surgeon Dr. Gil Vicente. He attested to "miraculous" results for his patients when tested with Boston C from his reports at one of the most prestigious hospitals in the Philippines.

Since 2011, Dr. Farrah and Sir Ton worked tirelessly to perfect the greatest evolution of the Boston C product, which is a culmination of all their years of clinical patient treatment experience.

Sadly, shortly before this happened, Sir Antonio Agustin began his next great adventure with his creator on July 31, 2015, after suffering an adverse drug reaction to anesthesia following a minor surgical procedure in a local hospital.

In October of 2015, testing was finally completed on the new Boston C formulation by the Philippine Department of Science and Technology. In that same year, I opened the Dr. Farrah Bunch Natural Medical Center.

Welcome to the Dr. Farrah Bunch Natural Medical Center

https://youtu.be/K_jPu60HPsw

Unfortunately, the became a victim of its' own success and was forcibly, criminally and illegally closed in August of 2018 after baseless complaints from 5 medical societies and 9

Pharmaceutical companies. It's best to demonstrate what happened in the words of those involved.

“I’m just getting started.”- Dr. Farrah Agustin-Bunch, M.D.

Are there Boston C testimonials?

There are considerable testimonials praising the benefits of Boston C. These can be seen at <https://www.youtube.com/channel/UCVeE2tR46vhvNSZMWwHmzQ>. However, testimonials should not be considered as medical evidence, as there are an infinite number of variables that may have contributed to any person’s success.
